1. On 20 April 1951, sixty-two Pe-2s were observed at the Vienna-Aspern (P 49/X 49) airfield. There is a possibility that still more Pe-2 aircraft were stationed at the field. Jet aircraft were not seen. Changes in the status of the airfield installations were not observed.
2. The empty repair shop on Zachgasse was being renovated. The "Official House", a former inn, on the Siegesplatz in Aspern was also being renovated. There has been no change in the radio installation on Siegesplatz.
3. An antenna mast with wires running to the ground and another antenna mast with wires running parallel to the mast were seen in the area of the Konrad Kaserne in Grossenzersdorf (P 49/X 59).
